Planning application submitted

London Borough of Tower Hamlets have appointed Bell Phillips Architects to provide new housing on five sites across the borough, providing 135 affordable homes.

The developments are on varied sites and include two buildings adjacent to the Regents Canal and a new building within Lubetkin's Dorset Estate in Bethnal Green. The new wedge-shaped building proposed for the Dorset Estate has been designed with a chequerboard of chamfered reinforced concrete screens that echoes the arrangement of brick panels on the surrounding buildings
